<u>**Unit 3 Lab 2**</u>

Write Pseudocode, Flowchart, Program Statements, and Programming Code (Java or Python Recommended)
You may need to find some information to solve some of the following questions.
    2. A Program Code to calculate an area of rectangle.

-   Pseudocode

    ```
    INPUT base
    INPUT height
    {
    RETURN (base * height)
    }
    ```

- Flowchart

- Program statement

TEXT:

```
INPUT base
INPUT height
{
RETURN (base * height)
}
```

BLOCK:
